

TABLE OF CONTENTS

Preface – Instead of a “Festschrift”	1
Anton Amann, Harald Atmanspacher, and Ulrich Müller-Herold	
The Primas Effect: On Quanta and Beyond	3
Ulrich Müller-Herold	
Hans Primas and Nuclear Magnetic Resonance	9
Richard R. Ernst	
Fragments of an Algebraic Quantum Mechanics Program for Theoretical Chemistry	39
Anton Amann and Ulrich Müller-Herold	
<hr/>	
Matter	
<hr/>	
C*- and W*-Algebras of Observables, Their Interpretations, and the Problem of Measurement	57
Anton Amann and Harald Atmanspacher	
Temporal Nonlocality	83
Günter Mahler	
Macroscopic Purification of States by Interactions	105
H. Narnhofer and W. Thirring	
Macroscopic Quantum Phenomena at the SQUID	119
Alfred Rieckers	
The Geometry of Quantum Probabilities	151
Karl Gustafson	
Probability and Quantum Dynamics	167
E.C.G. Sudarshan	

Perspectives on the Molecular Microworld 193
Dennis H. Rouvray

The Science of Matter: Fascination and Limits 213
Charles P. Enz

Mind

Holism 233
Abner Shimony

Concepts of Reality: Primas' Nonstandard Realism 249
Bernard d'Espagnat

Relative Onticity 273
Harald Atmanspacher and Fred Kronz

Rationalism, Determinism, Freedom 299
Vittorio Hösle

Cuts and Symbols 329
Wilhelm Just

Reflections on the Foundations of Quantum Theory 367
Carl Friedrich von Weizsäcker
